Aims and Scopes

Global Interactive Journal of World Religions and Cultures (GIJWRC) is a trilingual (English, Thai and Chinese Mandarin) and an interdisciplinary journal seeking an engagement between scholars working across a range of disciplinary fields, including world philosophical studies, religious studies, cultural studies, critical theory, and interdisciplinary humanities and social sciences. Lying at the interface between the study of philosophy, religion and other academic studies of culture. In particular, the journal will consider why philosophical, religious and cultural studies have hitherto neglected the significance of religious manifestations in cross-cultural perspectives, and define ways in which religious studies need to engage with contemporary areas of cultural critique. The principal aim of the Global Interactive Journal of World Religions and Cultures (GIJWRC) is to promote critical investigation into all aspects of the study of philosophy, religions, cultures, and interdisciplinary humanities and social sciences, particularly with an innovative and global interactive focus.
